United Towards a Sustainable FutuRE:
Advancing the Energy Transition for Indonesia Emas and Net Zero Emissions

Objectives of ISEW 2024 (third ISEW)

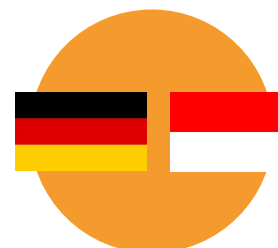

Facilitate high level dialogues between Indonesia and Germany and among Indonesian ministries to foster a global and national energy transition.

Enhance awareness of the public-private sector and communities on viable technology, policy and business solutions for Indonesia's energy transition.

Bridge policymakers and the public, including civil society, academia, as well as the private sector, and other relevant stakeholders.

Showcase the German-Indonesian Energy Cooperation Portfolio, provide platform for all programmes
